

It's Easy To Go Green.

In a world that moves at lightning speed it is sometimes easy to forget about being socially responsible. After months of testing we have developed a new program that makes it easy for all of us to do our part in contributing to a greener world.

Weatherall UV GUARD[®] and UV GUARD[®] II are 100% water-borne products that are environmentally friendly and easy to use. No harsh irritants to breath in and no irritants on the eyes and skin.

These products can help reduce your Volatile Organic Compounds (VOC) Emissions. What a great contribution to our environment while providing a high-end, quality stain and sealant system to all of our dealers and homeowners.

- 100% Water-Borne Product
- Reduces Volatile Organic Compound Emissions
- Less Waste and No Solvents Used in Clean-Up

Easy to apply. Easy to maintain. *It's easy to Go Green!*

We're making it easy
for you to **Go Green!**

Ask how to become a **Weatherall
Certified Applicator (C.A.P.S.)**
and receive great benefits!
